

Words for Numbers

Suggestions:

1. Look at each word. Focus on the part of the word that you find difficult to remember.
2. Try to link the word with one that you already know which has a similar spelling, or make up a rhyme using the individual letters of the word (Some ideas have been provided. Ask your tutor if you can't think of any yourself).
3. Say the word again. Finger trace the word on the desktop, saying each letter out loud. Say the word again.
4. Repeat step three with your eyes closed. Try to visualise the word.
5. Finally, say the word and then write it down, saying each letter out loud as you do so.
